

The Road

G. Love

Well the road is a lonely time
Well the road is a lonely time
Get back to you babe you know I'm trying
Well the road is a lonely night
Well the road is a lonely night
Sometimes it sure don't treat you right
When I sleep I dream of you
When I sleep I dream of you
When I wake I hope my dreams come true
When I wake I hope my dreams come true
Well the road is a lonely life
Well the road is a lonely life
Sometimes I can't be satisfied
Well I'm crying when I think of you
Well I'm crying when I think of you
When I get home please say that you've been true
When I get home please say that you've been true
Well the road is a lonely time
Well the road is a lonely time
Get back to you babe you know I'm trying
Get back to you babe you know I'm trying
Get back to you babe you know I'm trying
Get back to you babe you know I'm trying
