Mack:  
Baby, tell me is this good for you?  
Cause for me, its a dream come true  
I think about you, boy, day and night  
If this is right bitch she knowsCause I know  
One things for certain  
Boy Im not hurtin  
For inspiration  
And I feel  
When were together  
It could be forever and ever and everI wanna be the ocean to your shore  
Bring you comfort, ever more  
I wanna be the only thing you need  
Be the oxygenthe oxygen you breatheIs this as good as I think it is?  
Cause right now Im so into this  
And theres nothing more, that I would ever ask for  
Then to be with you  
Just to be with youCause one things for certain  
Boy im not hurtin  
For inspiration  
And I feel  
That when were together  
It could be forever and ever and everI wanna be the ocean to your shore  
Bring you comfort, ever more  
I wanna be the only thing you need  
Give you the oxygen you breatheWhat you give you will receive  
So baby, bring it all to me  
And I will warm you like the sun  
I always knew  
You were the oneI wanna be the ocean to your shore  
Bring you comfort, ever more  
I wanna be the only thing you need
