## Surfer Blood

[Verse 1]

What fire possesses you?

To live the way you do

From the cliffs at Oahu

A hymn for a holy fool[Chorus 1]

From a peeling mountain

In a final test

Said "I'm sorry but I can't stay

I'm tangled up in power lines"[Verse 2]

There's no glory and there's no blaze

Do you still have some part to play?

Do you have anything to say?

Before you take this leap of faith?[Chorus 2]

From a blank volcano

In a final blaze

Now we're strangers in a strange place

At the margins of the Earth[Bridge]

But we were better off in paradise

All we ever got were parasites

Ooh ooh ooh, ooh ooh ooh

Ooh ooh ooh, ooh ooh ooh

We were better off in paradise

All we ever got were parasites

Say to me "We're going home"

Say "Aloha, we're on our own from now on"[Chorus 3]

In a breath he vanished

He just flew away

Now he's tangled up in power lines

At the margins of the Earth
