

Mercury and Solace

BT

Vibes
Only you are my happiness
My memories
Lovely voices Nightfall, I'll meet you
Seeds of desire absolve
There's no going back
Losing control As the morning creeps up
And looking for the shade
In your embrace
My grieving says Reach out for me, reach out
Reach out for me, reach out I know you're, you're there Reach out for me, reach out
Reach out for me, reach out I may go with you
Lovely voices
Lovely voices Reach out for me, reach out
Reach out for me, reach out Reach out for me, reach out
Reach out for me, reach out Reach out for me, reach out I savor every moment
I'll savor every moment
You're precious
You're precious to me Reach out
Reach out
