

Feelings

Lasgo

Don't you dare to play with my feelings

I can't take it anymore

You spin the world around

You turn me upside down

I try to stay far away from you

Far away from you

Why do you still try

When you are the one to blame?

Why do I still cry

It'll never be the same?

Why do you still try

When you are the one to blame?

Why do I still cry

It'll never be the same?

You are beggin' me to stay with you

But you are drivin' me insane

Get out of my way and I will walk alone

I don't wanna be part of your game

I don't wanna be part of your game

Why do you still try

When you are the one to blame?

Why do I still cry

It'll never be the same?

Why do you still try

When you are the one to blame?

Why do I still cry

It'll never be the same?
