Knives and Faces

Raging Speedhorn

Your sore eyesDragging me down
Before my eyes
Fuck this dream
It's not reality
Go!Knives cut through fist and faces
Only one victim next to you
Knives cut through fists and faces
Only one victim next to youDifference build
From stick and bone
Lick the blade
Let blood surroundCHORUS (x2)Take me
To another place
Falling motionless
In Voids
Before I better recognise
Disguise lies brokenAngry
Bitter knives twisting
Deeper mind flaws
Controlling you concious
Don't follow
Just turn away
Back to the other ones
Inside you burning it
So long discomfort
Mind speaks to me anyway
Open and licking up
Your face in pieces
Angry and fuckin' up
Fingers bleed from touchingWhy'd you have to be so hard of hearingWhen you know I'm right
Because you're fuckin' wrong
Because you know
You know
You know
You're fuckin' right
Fuck
