

This Thing Called Love

Barry White/Johnny Wyatt

I saw you standing at the corner of the street
You look so fine
I don't care what it is you're sellin'
I wanna be the next in line You're dressed to kill
You look good enough to eat
I'm tellin' you
There's just one thing you can't beat This thing called love
This thing called love That long, blond hair, those eyes of blue
Those ruby lips and legs so long, baby
You've got the goods, you're holdin' big time
There's no way you can go wrong You knock 'em dead
When you're walking down the street
I'm tellin' you
There's just one thing you can't beat This thing called love
This thing called love
This thing called love
This thing called love Looking for love on a summer's night
I got you right in my sight
I've been looking for love since the break of dawn
Hey, baby, come on This thing called love
This thing called love I've been looking for love on a summer's night
I'm lonely and you right in my sight
I've been looking for love since the break of day
Hey, baby, what you say? Yeah
This thing called love
This thing called love
This thing called love
This thing called love
This thing called love
