Jacket

Nerf Herder

When you borrowed it that night
You wore my jacket for the last time
The jacket used to be our history
Now it's only covered with your memorySo much time I spent with you now
All that's left are tears fallin' off your bed
Marks made by your sleeping head
Lipstick from a drunken kiss
Ice cream stains that now I missI read the band names on the clothes
GBH, Black Flag and Dr. Know
I saw the Devo patch on your sleeve
You were in my jacket but you weren't with meSo much time I spent with you now
All that's left are tears fallin' off your bed
Marks made by your sleeping head
Lipstick from a drunken kiss
Ice cream stains that now I missBlood from when you scraped your cheek
The dirt from walking by the creek
Coffee spilled on our first date
I used to let you wear it in the rainSo much time I spent with you now
All that's left are tears fallin' off your bed
Marks made by your sleeping head
Lipstick from a drunken kiss
Ice cream stains that now I missI let you wear it in the rain
