

# Lights Out, Words Gone

## Bombay Bicycle Club

Keep your old and wasted words  
my heart is breaking like you heard  
But the town has always turned  
these lies and made them all burnKeep your old and wasted words  
my heart is breaking like you heard  
But the town has always turned  
these lies and made them all burnCan you feel the leeches bite  
that boy that she took out tonight  
He's brave and walking sure  
through all the spots you're working forWhen the light is out and words have gone  
let me be the one to try it on
