# Okay Alone

## Katie Armiger

Might be crazy but talking to the wind
Fills a place where you used to fit in
And sometimes I pretend
That I can hear your answering

And I'm missing you no matter what I do
In the silence of this moment I can barely move
Time won't, let me let you go
I'm still the girl that I was
Before my heart broke
I'll find a way to be okay, alone

Just when I think that I've moved on, let you fade
Somehow your memory finds a way
To break down the walls I've made
And leave me drifting
Through just another day

And I'm missing you no matter what I do
In the silence of this moment I can barely move
Time won't, let me let you go
I'm still the girl that I was
Before my heart broke
I'll find a way to be okay, alone

I know I'm strong enough
To move on without your love
And I know, I know, I know
Someday I won't

And I'm missing you no matter what I do
In the silence of this moment I can barely move
Time won't, let me let you go
I'm still the girl that I was
Before my heart broke
I'll find a way to be okay, alone
