

Never Lose (feat. Beat Assailant)

Deluxe

Look Far, look far ahead! He's a likeable cuss and all
Remarkable first two yards
Late like you said, saggy load of lead
Definitely knows how to get you mad
He's a handsome, envied load of taste
The kind you put all over your waist
Late like you said, saggy load of lead
Definitely knows how to get you mad
He's a natural cheater back home
An understandable prickly asshole
Late like you said, saggy load of lead
Definitely knows how to get you mad
Fasten your tights, be a good child
Speaking that crap, into the microphone, yeah
Listen to me before you swing round
I'll be long gone when you're back
Long gone when you're back
Speed of the dial, give it a try
Upchucked, dirty, of a child
You ain't worth my time
Don't even try
Big grin again, cheesy, don't be shy
Look Far, look far ahead
Never Lose, Never Lose!
Look Far, look far ahead
We focused on the front,
It's like we're wearing blinders
Same for the losers
This one is for the grinders
Put it all behind us
We're moving to the top
And we're never slacking off
Cause the bar can never stop
B.A and Deluxe
The two go together
Picking up the mic
You know we jam for whatever
Hand on the lever
Hand on the trigger
Picturing the crew falling off
How you figure
Always doing bigger
Ain't coming up small

But i keep an even keel
Cause its right before the fallTelling all of y'all
 Deluxe, Never Lose
Six million ways so its up for you to choose
 And the rhyme chose me
 Some would call it fate
Never looking back cause the slackers wanna hate
 Never late with the rhyme
 Always on time
 Gotta stay with it
 Everything is on the line
