Vampire Sunrise

Boy Epic

You've got those pretty eyes
Making me feel like im in trouble deep
But you know that I like that deep
Between your thighs
Take off that summer shirt
Honestly I need you all over me
Wifey touch, forget the trust
Every bit of you is just enough
Crosshairs on the game of love
No priest, all we need is the sun
On the beach, you and me
We're gonna let it burn
We're gonna let it burn
Taste that vanilla sky
I can feel you on my tongue
Magnificent, sweet
Yeah you know that I like that sweet
Till it feels right
I take you like a pill and drive
No hands, just fade into the dark night
Windows down, the music is loud
Were burning bright like a vampire sunrise
Crosshairs on the game of love
No priest, all we need is the sun
On the beach, you and me
We're gonna let it burn
We're gonna let it burn
Burning bright like a vampire sunrise
And the angels fall from the sky
Nova's burning bright
Burning bright like a vampire sunrise
I don't wanna close my eyes
Nova's burning bright
