Hellbrigade

Centinex

A flash in the night, the legion is here
Like mighty predator of hate, breathing steel
Out in the fields, the aim is to kill
Until the end the fight gives a thrillWe are the hellbrigade
Troops of terror and fear
We annihilate, we desecrate
Out on a mission to devastateThe moon gives us light, the stars brings us strength
We are the ones with bloodthirsty will
Nowhere to run, nowhere to hide
We will strike hard with power supremeWe are the hellbrigade
Troops of terror and fear
We annihilate, we desecrate
Out on a mission to devastateFrom dust to mud, from dawn to night
The fallen ones are buried and gone
Blood for blood, eye for an eye
We march with pride and victory in mindA flash in the night, the legion is here
Like a mighty predator of hate breathing steel
Out in the fields the aim is to kill
Until the end the fight gives a thrillWe are the hellbrigade
Troops of terror and fear
We annihilate, we desecrate
Out on a mission to devastateWe are the hellbrigade
We are the hellbrigade
