

Beside You

Iggy Pop

I've been hungry way down in my heart
Waiting for a reason
I've been hungry like a lot of guys
I want to be beside you Lonely people pass me in the street
Waiting for a reason Beside you gray is turning to blue
You wake up love in me
Beside you everything is new
You wake up love in me I've been hungry way down where it hurts
Waiting for a reason
I've been hungry like a lot of guys
I wanna be beside you Beside you gray is turnin' to blue
You wake up love in me
Beside you everything is new
You wake up love in me What a world
I really need you girl
You wake up love in me Beside you gray is turning to blue
You wake up love in me
Beside you, beside you
I want to be beside you
Beside you, beside you I want to be beside you
I want to be beside you
I want to be beside you
