

# To Kill Myself (Created to Kill Sessions)

## Cannibal Corpse

Dwelling inside was an anger, an anger that grew into hatred  
Grinding, churning inside of me  
Seeking, finding the need to feed  
On my soul, it now appears I've lost control  
Of my mind, it's now begun to tear and grind  
The pain, its destination my brain  
Can't hide from being eaten from inside - inside  
Originating deep within, a heart that is now cold and dead  
Tearing its way through my organs, leaving nothing but shreds  
Ripping, tissue is torn away  
Severing, parts and veins in the way  
My insides are on the outside of me  
My bones now shatter and explode  
The pain, its destination my brain  
Can't hide from being eaten from inside  
Left on the ground is my head, waiting for the final blow  
Brain violently corroding, the end won't come fast only slow  
Seeing what's left of my body  
Drowning, blood is surrounding me  
My skull melts revealing my brain  
Exploding, my body's imploding  
The pain, its destination my brain  
I've died, I've been eaten from inside
