In My City

ABN

If I ever had a wish in the whole world
I would?ve listened to my brother when he spoke to me
And I never would?ve played with my conscience
In the fields where I was in their company
But you gave me wings and I used them
I used them, I used them on my youth
And you gave me wings and I used them
I used them, and I won?t lose them
Now I've found my feet, count to one, two, three
And I?m taking off tonight, now I?m free
As I walk my feet on the cold concrete
And I, and I, and I
I can feel my dreams when I?m, in my city
I fall on my knees for my, for my city
We grow on every dream in my, in my city
And that?s where I?ll stay
And that?s where I?ll stay
In my city
I wandered down the streets in my new town
With the lights blinding and my heart played down

I think I'll get a job, recieve people's thunder
But the folks back home I?ll make them proud
But you gave me wings and I used them
I used them, I used them on my youth
Yeah, you gave me wings and I used them
I used them, I don?t wanna lose them
I don?t wanna lose them
I can feel my dreams when I?m in my city
I fall on my knees for my, for my city
We grow on every dream in my, in my city
And that?s where I?ll stay
And that?s where I?ll stay
In my city
My shoulders ache for wanted wings
My city shakes the fear in me
I can feel my dream when I?m, in my city
I fall on my knees for my, for my city
We?re grow on every dream in my, in my city

And that?s where I?ll stay
And that?s where I?ll stay
In my city
