

Narcosynthesis

Nevermore

hypnotize me,mesmerize me
change the world,internalize
drain the color from my eyes
how did it come to this,
patronize me,energize me
crucify your ideals the flesh is the swine
narcosynthesis
alienate me,learn to hate me
we are the last ones and we're bleeding
for an unseen god
turn my blood to sand
what are you searching for?
lives fall through the hourglass and grow cold
turn my dirt to gold
please salvage my soul
victimize me,vilify me
time the healer the great concealer
you are nothing and you speak for
vilipend and amend the sins you condign
all that never was
