

Cold Summer Nights

Francis M

I keep on blaming my self
I should have eaten my pride
How can I convince you
It's just a matter of time
Many times I've hurt you
With my foolish ways oh girl
Now I know I have to pay the price
Is there a way for you to turn around,
Turn around and come back baby
Ohh baby can't you see

chorus:

It's been cold summer nights since we drifted apart
Cold summer nights since you walked out that door
Cold summer nights oh, here on my own
Coz I miss you baby, I need you here

repeat of first verse:

i keep on blaming my self
i should have eaten my pride
how can i convince you
it's just a matter of time
many times i've hurt you
with my foolish ways oh girl
now i know i have to pay the price
is there a way for you to turn around,
turn around and come back baby
ohh baby can't you see...

chorus:

it's been cold summer nights since we drifted apart
cold summer nights since you walked out that door
cold summer nights... oh, here on my own
coz i miss you baby, i need you here

chorus:

cold summer nights since we drifted apart
cold summer nights since you walked out that door
cold summer nights... oh, here on my own

coz i miss you baby, i need you here

chorus:

it's been cold summer nights since we drifted apart
cold summer nights since you walked out that door
cold summer nights... oh, here on my own
coz i miss you baby, i need you here

chorus:

it's been cold summer nights since we drifted apart
cold summer nights since you walked out that door
cold summer nights... oh, here on my own
coz i miss you baby, i need you here

Babyâ€ babyâ€ ohh
