Computer Camp Love (Villains Remix)

Datarock

I ran into her on computer camp
Was that in '84, not sure
I had my commodore 64
Had to score
(Not with a -- tramp)
She's not a tramp
Her name is Judy
That's a nice name
Yeah she's a nice girl
Big deal
Did you get in her pants
She's not that kind of a girl booger
Why, does she have a penis
Seen as supremus
You better know she's a genus and a Venus
Tell me more was it love at first sight
That's right this was god giving grace with a face you could praise
Tell me more did you put up a fight
I don't think so but before we tour the chorus stall let's all explore a more a
Computer cabin war
That right
I said before we explore the amore on my story do a dora
Computer cabin war
Seen as supremus
You better know she's a genus and a Venus
Tell me more was it love at first sight
That's right this was god giving grace with a face you could praise
Tell me more did you put up a fight...
I ran into her on computer camp
Computer cabin war
Hard core
It started like a boar ending up on the floor
Come on now tell me more
Seen as supremus
You better know she's a genus and a Venus
Tell me more was it love at first sight
That's right this was god giving grace with a face you could praise
Tell me more did you put up a fight...
