

# Under the Radar

## Sister 7

They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
Im just trying to get mine  
Living my life  
Stained from the grind  
Been hustlin so long my life  
But still they try to bring me down,ohhhhh  
But they don?t really know that  
Ive been watching them close like a satellite  
But they don?t really know that  
Ill be standing in the crowd in my camoflauge  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
I can see it in their eyes  
Envy on their eyes ,still im not surprised

You know im strong enough to take them hard times  
I aint about about to give it up,ohhhhh  
But they don?t really know that  
Ive been watching them pulse with my third eye  
But they don?t really know that  
You can never change the blue print of my life  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar

So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar(radar,radar,radar)  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar  
So I lay low,lay low  
They never see me coming under the radar
