

# Come On

Will Young

Walk Away  
That's what you do  
And it looks like i'm  
Somebody you once knew  
Your caught in a corner  
With nowhere to hide you eyes  
Do you think you wanna  
Say Goodbye

Hey  
Always the last to say  
Everything makes you feel  
Like a walking away  
Come on Come on Come on Come on  
Hey

Always the last to say  
Everything makes you feel  
Like a walking away  
Come on Come on Come on Come on

There's a bit of me  
That will always be with you  
And something tells me  
This is love were due  
Hey

Always the last to say  
Everything makes you feel  
Like a walking away

Come on Come on Come on Come on  
Hey

Always the last to say  
Everything makes you feel  
Like a walking away

Come on Come on Come on Come on

Come On Come On Come On Come On Come On Come On Come On Come On  
Come On Come On Come On Come On Come On Come On Come On Come On

Like a dream  
The sky is falling  
Is it you whos talking  
Can i take these words away

Hey ay ay

Always the last to say  
Everything makes you feel  
Like a walking away

Can i take these words away e ay e ay  
Like a dream the sky is falling
