

# What If I Do

[Mindy McCready](#)

I'm afraid were moving a little to fast  
He thinks were movin' to slow  
I'm sittin' here praying this movie  
Will last another hour or so He whispers he loves me he loves me so strong  
He wants to show me tonight  
When two people have wanted each other  
So long you know its only right  
Ya tonight What if I do will he love me more  
What if I don't will he walk out the door  
I want to wait till I know it's true  
He thinks I won't but what if I do He's got my body screamin', screamin' lets go  
He's got my mind all a mess  
The part of me that always says no  
Is losing to that part that says yes  
It's a test What if I do will he love me more  
What if I don't will he walk out the door  
I want to wait till I know it's true  
He thinks I won't but what if I do He says will be together from now until forever  
Is he just being clever or what What if I do will he love me more  
What if I don't will he walk out the door  
I want to wait till I know it's true  
He thinks I won't  
He thinks I won't What if I do will he love me more  
What if I don't will he walk out the door  
I want to wait till I know it's true  
He thinks I won't but what if I do  
He thinks I won't but what if I do
