

# Ball And Chain

## Stereo Fuse

Feel the fire burning inside of me stronger each day  
Feel the fire burning inside of me never fades away never fades away  
Too much of a good thing will lead to suffering  
Too much of a good thing can be a ball and chain  
Didn't want to fall down again today that's how it goes  
I'll just burn out and fade away can't let it go can't let it go  
Too much of a good thing will lead to suffering  
Too much of a good thing can be a ball and chain

Can you feel it, feel it the way I feel tonight?  
Can you feel it, feel it now everything's alright  
Feel the fire burning inside of me stronger today  
I know this affliction is killing me never fades away never fades away  
Too much of a good thing will lead to suffering  
Too much of a good thing can be a ball and chain  
Can you feel it, feel it the way I feel tonight?  
Can you feel it, feel it now everything's alright
