Fallen world

BIOSPHIA

Soldiers of fire
Rage of the universe
Cold steel and bloodshed in the lost barren wasteland

Fear rising higher,
Rage of the winter war
Death calls at nightfall our hatred still burns as we

March through endless skies
Mankind will fall, death will arise

[CHORUS]For A lifetime we fight without reason
Still we wait for the warriors return
Though we're cast out and broken we still carry on
Alone in a lost fallen world

Woah-Yeah!

Flames burning higher,
Curse of the winter land
Black torn and twisted in the fast fading twilight

Storm winds still blowing
Steel shapes our destiny,
Death calls at nightfall our curse with be lifted

Disguise this timeless crime
Brave men will fall, evil will rise

[CHORUS]
Still heroes we're born with promises so blind
The light at the end of the road that we all must climb (climb)

SOLOS: HERMAN / SAM + VADIM / SAM / HERMAN

For A lifetime we fight without reason
Still we wait for the warriors return
Though we're cast out and broken we still carry on
Alone in a lost fallen world

Alone in a lost fallen world

Woah-Yeah!
