

Stuck With Me

Timeflies

Open up the shades, sun is on the way, come over here and lay, what are you afraid of,
Expressions on your face easily explain, you're worried about the fame, I won't let it change us,
And I-I-I-I-I-I-I-I-I won't tell you no lie-e-e-e-e-e-e-e , 'cause baby you are stuck, you are stuck with
me,
Don't got everyday for how you were made, naturally engaged you don't need the make-up,
(No, no)
Every curve and shape I could illustrate, your body on the page I could not eras-s-e-e love,
(Yeah!)
And I-I-I-I-I-I-I-I-I won't tell you no lie-e-e-e-e-e-e-e , 'cause baby you are stuck, you are stuck with
me,
At first you tried to fight it, feelings you could find no way of hiding, and then you are always worried about the
timin', is it right?
But you know that you are always on my mind and to tell you the truth will I'll be liein' if I didn't tell you baby
you know I'm in this for life,(and if I lie)
'Cause baby you are stuck, you are stuck, you are stuck with me,
Open up the shades sun is on the way-y-y.
