

# Little Suicides

## The Golden Palominos

It happens in the smallest ways  
It happens all the time  
But if you've never had your sight  
What's it mean to be blind  
Now maybe they all just pretend to be  
Or maybe we're not trying  
Can't we just be happy for awhile  
It happens all the timeAll these little suicides  
They hardly make a mark  
I can take these fun-house rides  
I'm a natural in the dark  
I'm a natural in the dark  
In the darkIf I could give you that  
I'd give it all the time  
You're just a little tired today  
Tomorrow you'll be fine  
If love heals anything at all  
We should be flying  
If I could give you that  
I'd love you all the timeYou're everything I've ever wanted  
You're everything to me  
Is there no stopping when it's started  
These old hearts just come apartIt happens in the smallest ways  
It happens all the time  
If I'm not who I used to be  
Well, it's not to be unkind  
And if you feel these aren't your better days  
Oh, I don't mind  
Can't we just be happy for awhile  
It happens all the time
