You Make Me Sing

Kasey Chambers

You make the thunder start (a) rollin You make the lightening cover the sky You make the storm cloud hover over the hills You make the water start rising high You make the town folk run for cover You make the animals run and hide You make the light go dim like its suffering You make the rain come outta the sky You make the flowers die You make the girls cry like a bird with a broken wing But ya make me sing, ya make me sing[Chorus] Ya make me sing like a lone wolf howling Ya make me sing like an angel fly Make me sing like a church bell ringing to let you in Oh you make me sing You make the sun creep over the mountain You make the darkness swallow the sky You make the leaves turn brown in the spring time You make the willow tree willin' to cry You make the wind blow like a hurricane You make the fire burn out of control You make the water come in and the ship sink You make the river too shallow to flow You make the flowers die You make the girls cry Like a bird with a broken wing but ya make me sing Ya make me sing[Chorus]oh oh oh I wanna shout it out I wanna scream about I want the whole world to hear I got the earth shattering under my feet And you ringin' in my earYou make the flowers die You make the girls cry like a bird with a broken wing But ya make me sing, ya make me sing[Chorus x2]
