Air Towel

Underworld

Should I want it? Should I want?
Should I want it? Should I want?
Should I want it? Should I want?
Should I want it? Should I want?Bunny girl, happy shopper, bouncing ball
Telephone dial, shifting sun are you waiting for a bus?
Effort, effort, women sleep, who knows what happened to be my wish
The shop was open now, how 'bout selling some more things
Bouncing ballBunny girl, happy shopper, bouncing ball
Telephone dial, setting sun, are you waiting for the bus?Human pleasure, trust that girl, human wire [unverified]
Human glad, I remember, I come woman, I come women
I come one man, I come one man, I come one man
I come one man, I come one man, I come one manBunny girl, happy shopper, bouncing ball
Telephone dial, shifting sun, you are waiting for a bus
Bedford sun, in the end, human pleasure, transmit love
Human wire, I'm the same, I am glad thing and I come wandering
I come wanderingJane is waiting in your software, in your blouse, in your denim
Carrying her new software, little black thing is electric
In the braid, in the braid, in gray, all she says now and he says
Come on, fuck this, I'm no woman, I'm a maniac, I'm on tradeI'm no paying, senseless geezer, where the doors are opening
With electric [unverified], in the tube hole, it is sliding full of moisture
Getting on now, with his both hands, on the red poles, on the red poles
(You're so ugly)Should I want? Should I want it?
Should I want? Should I want it?
Should I want? Should I want it?
Should I want? Should I want it?Should I want? Should I want it?
Should I want? Should I want it?
Should I want? Should I want it?
Should I want? Should I want it?Should I want? Should I want it?
Should I want? Should I want it?
Should I want? Should I want it?
Should I want? Should I want it?Should I want? Should I want it?
Should I want? Should I want it?
