My Whole World

Kim Richey

I'd almost convinced myself it wasn't true
Till the very moment he walked in with you
Now I'm pretendin', I'm not staring at the proof
There's no denyin', inside I'm cryin'
As I watch you walk off with all my dreamsThere goes my whole world up in smoke
An' I might be laughin' if I weren't the joke
There goes my whole world with someone new
There goes my whole world
There goes my whole world with youHope you never find yourself here in my place
Watchin' him with someone else while your heart breaks
Little bit of that sure goes a long, long way
An' I will remember this day forever
As I watch you walk off with all my dreamsThere goes my whole world up in smoke
An' I might be laughin' if I weren't the joke
There goes my whole world with someone new
There goes my whole world
There goes my whole world with you
