

# An Ordinary Abnormality

## Amaranthe

Can't save a life that burns  
Entwine a million souls to fight  
As we change gear to overdrive  
We raise our voices in fear - Unite  
Until the threats declined - Delivered  
It's an alliance intertwined Define sensational, The actions of a lie  
It's like a mirror, Crushed in thousand pieces We're so irrational, Your rules do not apply  
Confirm your clarity And face a forced divinity Subjective mental disdain - Regain  
Retain the clutch of the pain - Denial  
I'm underestimated Oh why  
Won't you believe  
Accuse me and strip me of my liberty  
Hey look here, follow me  
It's an ordinary abnormality Survived a miracle  
Dramatically revived  
We pull the trigger  
Burst into thousand pieces We're so adaptable  
That we could change disguise  
Confirm your clarity  
And face a forced divinity The bells will sing as you cry - You die  
Unleash your bestial pride - Forever  
It's a defiance of a lie Restrained the light that burns  
Endure the darkest side of fame  
We overload and override  
Selective central complain - Obtain  
Regain the force of rain - Deliver  
I'm underestimated
