

Survive

Avery Watts

(VERSE 1)

You walk among the blind
With your future undefined
You stare as history repeats But go into your mind
And try to find

What leads you to your destiny (PRE-CHORUS)

Here we stand, for all time
Together well defy the darkest nights
So take my hand, hold on tight
Well never die

You know we will survive (CHORUS)

We

Will

Survive (VERSE 2)

The battle has begun
Will you stand and overcome
Or be shot down by self-defeat? Riding on the line
You'll choose a side
And we will see a victory
