

Free to Be Me

Johnny James

(Verse):

Waiting here below the sky
I watch them as i try pass time
The moon awaits my company
The stars will watch me as i sleep
We need some difference in this world
Give hope to every boy and girl
To make a difference is my wish
To inspire people is a gift(Chorus):

Free to be me

Im gonna love myself no matter what

Free to be me

Not gonna deal with other peoples thoughts

Free to be me

Im gonna dye my hair and be happy

Free to be me

Im gonna be myself and be free

(Verse):

Walking through those giant doors
Is in fact the scariest thing of all
But walking out of them all free
An achievement to good to believe
Waking up with no deny

It feels so good on the inside

Now that i feel like i've won(Chorus):

Free to be me

Im gonna love myself no matter what

Free to be me

Not gonna deal with other peoples thoughts

Free to be me

Im gonna dye my hair and be happy

Free to be me

Im gonna be myself and be free

(Post Chorus):

I've been going through my life asking questions

But now i think i've found the answer

Free to be me(Bridge):

I feel like i'm the last one here

And i feel like i'm the bad one here

But i feel as if i'm happy on my own

Just alone(Chorus):

Free to be me

Im gonna love myself no matter what

Free to be me

Not gonna deal with other peoples thoughts

Free to be me

Im gonna dye my hair and be happy

Free to be me

Im gonna be myself and be free(Post Chorus):

I've been going through my life asking questions

But now i think i've found the answer

Free to be me I've been going through my life asking questions

But now i think i've found the answer

Free to be me
