

# Space Captain

Barbra Streisand

Space captain Once I was traveling across the sky  
This lovely planet caught my eye  
Being curious, I flew close by  
And now I'm caught here until I die Until we die  
Until we die  
Learning to live together  
Learning to live together  
Learning to live together  
Till we die I lost my memory of where I've been  
We all forgot that we could fly  
Someday we'll all change into peaceful man  
And we'll return into the sky Until we die  
Until we die  
Learning to live together  
Learning to live together  
Learning to live together  
Till we die Live together  
Learning to live together  
Till we die  
To live together Learning to live together  
Learning to live together  
Learning to live together  
Till we die Until we die  
Until we die  
Learning to live together  
Learning to live together  
Learning to live together  
...
