

Flesh of the God

Project Silence

I will pray for you, I will wait for you
Before I make my final run
I will stay with you, I will decay with you We may not prosper, but we will prevail I must bury your memory
And crucify your functions
Press down your thoughts Flesh of the God Cruelty and pain
Murdering thoughts
Prey of religion Prey of the God Burn your tongue
Purify your heart
Spoil it
Rotting meat is yours I am the ash of disease
I am the God
I am the end I will judge for you, I will bleed for you
Before I sacrifice everything
I will be with you, I will rule with you We may not prosper, but we will prevail I must bury your memory
And crucify your functions
Press down your thoughts Flesh of the God Cruelty and pain
Murdering thoughts
Prey of religion Prey of the God Flesh of the God
