

# So Easy

## Balthazar

Wait here my friend  
This is the end  
Got tired to pretend  
And well, the days are so few  
Who is to say  
And where do we pray  
And who is it will pay  
For all the things we do  
Look further no more  
Got nothing in store  
On everyone we swore  
Well they aren't here no more  
You know our deal is done  
And no one has won  
the scene that is dead  
won't lead us to our bed  
You were so easy  
Down from the start  
Been round to part  
But that's something we both should know  
You were so easy  
Down from the start  
Been round to part  
Wait here my friend  
This is the end  
Got tired to pretend  
And well, the days are so few  
You know who is to say  
And where do we pray  
And who is it will pay  
For all the things we do  
You were so easy  
Down from the start  
Been round to part  
But that's something we both should know  
You were so easy  
Down from the start  
Been round to part
