Thru The Window

Reo Speedwagon

Thru the window, I slip away
Into the darkness, time has come
I must use caution, summer nights are here
I'll race for the shadows, I'll make a trail
No one can follow and all I feel
Is the breeze rushin' by my face
Runnin' free thru the night in the street
I like it best when I feel the heat
Runnin' free thru the night in the street
I know my baby's waitin' just for me
Runnin' free thru the night in the street
I like it best when I feel the heat, yeah
Creepin' thru her neighborhood
I hope nobody has seen or heard
My intentions are driven by this flame inside
I see her light on, her silhouette's in the window
She's waiting for my arrival
On this summer night
Runnin' free thru the night in the street

I like it best when I feel the heat
Runnin' free thru the night in the street
I know my baby's waiting just for me
Runnin' free thru the night in the street
I like it best when I fell the heat, yeah
Thru her window, she slips away
I hear her heartbeat, high emotion takes us
Where we've never been before
Runnin' free thru the night in the street
I like it best when I feel the heat
Runnin' free thru the night in the street
I know my baby's waiting just for me
Runnin' free thru the night in the street
Runnin' free thru the night in the street, oh yeah
Runnin' free thru the night in the street
Thru the window, thru the window
Thru the window, thru the window
Thru the window, thru the window
