

I didn't Come Here To Talk

[Ray Scott](#)

I could tell you that I missed you
Say its good to be home
And that its hell out there without you
And it's hard to sleep alone I could say I missed the feelin
Of your lips on mine
Tell you everythings right in my world
When its just you and I And I could stare at you forever
Girl, I could go on and on
But I didnt come here to talk I could whisper youre my angel
Cause thats sure what Im thinking now
But Id rather tell you that I love you
Without a word from my mouth Now, I love a good conversation
And your bodys talking to me
Its sayin once might not quite be enough
And Id say I have to agree And you're lookin fine in that dress
Here, let me help you slip it off
I didnt come here to talk Baby, lay down here in my arms
Let me show you what Ive waited on
Oh, sometimes, girl
Theres no need for words at all I didnt come here to talk
Come here, baby
