Entrance

Liz Vice

There you were hanging, transforming the pain into
Entrance into your heart
Before we could come in, you had to destroy within
The dark that kept us apart
Before we had heard of you, but had no concern for you
Darkness was all around
The wall was so high, no way to get by
But then you tore it all downWe crossed the threshold and death lost his control
As the sun rose in our hearts
We felt the warm embrace, of your sovereign grace
Now, every day we can start
To live and love with you, follow and worship you
With songs that flow from our soul.
Filled with the light of you, as we are led by you
Longing with joy to be homeJesus come, take our hand
Lead us into the promise land (X4)
