Eternally Is Here

The Gun Club

Well, this is what I've never told you
yes, we are animals too
and it'll be a life of "getting back"
for a night of "getting off"but, I couldn't wait
now, eternally is here..."I never promised you anything
for promising me everything," she said.
"I stood silent and true
while you fell to pieces."but, I couldn't wait
and, eternally is here...and it's a long way down... without a sound...You've known I've always wanted you
and since today is the end of the world
you're heart and no more art (your?)
will hold me tonight!but, I couldn't wait
now, eternally is here...and it's a long way down... without a sound...(solo: Jeffreylee)This is what she always said:
"I will give to you of love and blood
for all the forever and never
and yet, still again and again..."but, I couldn't wait
now, eternally is here...and it's a long way down...
without a sound in this world...
