

# Clipped On

## Blood Orange

[Hook: Dev Hynes]

I've been doing all the things you don't want me to do  
Lay me down, sit right next to me, baby  
All I do is think about you  
All I do is think about you, baby[Verse 1: Despot]  
Devil barely in a dress, painting the town red  
I'm watching it dry while I wait to take her to bed  
I'm bored out my mind and my table paying her rent  
By the time I take care of the check she be moist as a towelette  
She told me she only got eyes for me  
I know she ain't blind though  
Who she see when she got lonely  
Which one of them reached in her thighs  
Birds and the bees in the hive  
Trying to creep in disguise, show me  
I'm only one of her one and onlys  
Grass on the other side is so green  
And sorry won't cut it so try a knife or dont be  
While time goes slowly  
On the rose gold roley  
Fine prized ponies  
All racing for dollar bills  
Get your bitch a collar, chill  
Chances are she probably will  
Once she got all oochie wally off a molly pill  
Woke up in a bonnevillie  
Missed that new bugatti feel  
Roof goner than the tooth on a toddler  
And the sun shining through  
As if it knew im his father  
New mantras if the goose out the bottle  
I dont need no excuses for the smooch on the collar  
And i dont know  
If this the edge of my seat or it's the end of my rope  
So whats it gonna be?  
Either love or leave it alone  
Asking me how i sleep at night  
When you know that i dont  
Trying to keep from dreaming about seein you on your own  
Being who you being and leavin me here at home  
Hear the streets are speakin  
I got the block in a choke  
I ain't feelin the city breathing  
Im squeezing down on its throat  
Used to be a dime  
Now she's on the house  
You made your bed now lie in it  
Or sleep on the couch  
It ain't you its me  
Its ok boo, i quit  
It takes two to tango  
It takes one to dip[Hook: Dev Hynes]

You never seem to tell me  
What you want to be  
But every time your eyes look  
Dooown..
