

# In the Name of the Father

## Black Grape

It's coming from the side!  
And it's coming from the back!  
People!  
Multitudes of people!  
Walking up the hills!  
Go forward! In the name of the father and the holy ghost  
In the name of your father and your holy ghost I don't do what you do  
And you don't do what I do  
But you should do  
You  
Oh, you've got your voodoo  
But you've got no clue  
You know me easy bongo poo-poo for me  
Well because I'm no learned  
Well I get away with murder  
Going boldly where no man's been before Ere we go, ere we go  
Once ag-ain In the name of the father and the holy ghost  
I have the holy spirit in me!  
In the name of the father and the holy ghost  
I have the holy spirit in me!  
Neil Armstrong  
Astronaut  
He had balls bigger than King Kong!  
Fay Wray!  
First big suit on the moon  
And he starts to play golf!  
Hole-in-one! [ Psycho raps? ]  
Here we go, 'ere we go  
Once ag-ain In the name of the father and the holy ghost  
I have the holy spirit in me!  
In the name of the father and the holy ghost  
I have the holy spirit in me!  
[ Psycho raps? ] In the name of the father and the holy ghost  
I have the holy spirit in me!  
In the name of the father and the holy ghost  
I have the holy spirit in me!  
In the name of the father and the holy ghost  
I have the holy spirit in me!  
In the name of the father and the holy ghost

I have the holy spirit in me!

In the name of the father and the holy ghost

In the name of the father and the holy ghost

In the name of the father and the holy ghost

In the name of the father and the holy ghost

In the name of the father and the holy ghost

In the name of the father and the holy ghost

In the name of the father and the holy ghost

In the name of the father and the holy ghost...
