I Wish for You

Val Mace-Mapa

I wish for you my child all my joys that life can bring
May fragrance fill your life like flowers in the spring

May laughter be your song if ever we apart
The rain clouds disappear and May love warm your heart

May all life's best be yours each day fresh and new
May quietness caress your soul like early morning dew

But most of all my child in God's grace may you grow
I pray he'll hold you close and never let you go.
