

Don't Let Go

YOHIO

Take my hand and walk with me
I wanna show you that this life we live
Is more than you can see
Tonight I want you to feel free, yeah
Tonight I want you to rely on me
Like it's supposed to be
You know I miss you
Baby I miss you
I never thought I'd dare to shout it out
You know I miss you
I wanna see you now
Don't let go
'Cause I'll never leave you
Don't let go
'Cause I wanna be there for you
And I know that you want it too
Tonight I'm gonna be with you
Don't let go
'Cause I'll never leave you
Don't let go
'Cause I wanna be there for you
And I know that you want it too
Tonight I'm gonna be with you
There's no reason to be shy
'Cause if you stay with me I promise you
You'll never have to cry
You know I miss you
Baby I miss you
You stole my heart and I don't want it back
You know I miss you
I wanna see you now
Don't let go
'Cause I'll never leave you
Don't let go
'Cause I wanna be there for you
And I know that you want it too
Tonight I'm gonna be with you
Don't let go
'Cause I'll never leave you
Don't let go
'Cause I wanna be there for you
And I know that you want it too
Tonight I'm gonna be with you
Never felt this way before
But how can I be so sure

that you won't leave me outside your door

Ooooooh

You're the only one for me

Just how long will it take you to see?

This world was made for you and meDon't let go

'Cause I'll never leave you

Don't let go

'Cause I wanna be there for you

And I know that you want it too

Tonight I'm gonna be with you

Don't let go

'Cause I'll never leave you

Don't let go

'Cause I wanna be there for you

And I know that you want it too

Tonight I'm gonna be with youDon't let go

'Cause I'll never leave you

Don't let go

'Cause I wanna be there for you

And I know that you want it too

Tonight I'm gonna be with you

Don't let go

'Cause I'll never leave you

Don't let go

'Cause I wanna be there for you

And I know that you want it too

Tonight I'm gonna be with you
