

# New Generation

## New Politics

I met a stranger he had fire in his eyes  
Then I met a pretty angel but she was like too dead inside  
Then I met a bunch of children with no food to eat and no place to hide  
So I tried to get away now but there's nothing in the world that can keep me in the skies  
So if you ever happen to bump into to god  
Please ask him if he made us all up for fun  
Come on  
Don't keep me waiting you've got nothing to lose  
The world is fading you've got nothing to prove  
Finally it all comes crashing down to the earth  
Finally we get what we deserve  
I met a preacher he had heart but he was blind  
Then I met another homeless who sold his soul for less than a dime  
So I opened up the papers but there were rats and painted lies  
So I looked up to the sky and smiled and realized how small we are  
So if you ever happen to bump into to god  
Please ask him if he made us all up for fun  
Come on  
Don't keep me waiting you've got nothing to lose  
The world is fading you've got nothing to prove  
Finally it all comes crashing down to the earth  
Finally we get what we deserve  
Pardon my french  
This is so ridiculous  
I'm a product of God  
  
Still there's poison in my blood  
I find it cynical  
I think you're critical  
We better breakout  
Before we blackout  
Raise your voice  
Don't let them break you down  
All depends on what you do  
It's a state of mind  
Free the youth  
Don't let them break you down  
All depends on what you do  
It's a state of mind

This boxing ring ain't big enough

For the two of us

So hold your ground

(Don't look down)

One wrong move and you'll

Taste the ground

Taste the ground

Oh oh

We Are the new generationg

Oh og

We have to rebuid the nation

Finally finally

We get what we deserve
