

# Tomorrow

## Ladytron

I don't hate you or want you  
Enough to wake you  
There's a crack in the window  
Return off the key in ignition So if you freeze tomorrow  
Come back lucky  
We saw that your eyes were closing There's a crack in the window  
Return off the key in ignition  
But I don't hate you or want you  
Or celebrate you So if you freeze tomorrow  
Come back lucky  
We saw that your eyes were closing So if you freeze tomorrow  
Come back lucky  
We saw that your eyes were closing But I don't hate you or want you  
Enough to wake you So if you freeze tomorrow  
Come back lucky  
We saw that your eyes were closing So if you freeze tomorrow  
Come back lucky  
We saw that your eyes were closing We saw that your eyes were closing  
We saw that your eyes were closing  
We saw that your eyes were closing  
We saw that your eyes were closing So if you freeze tomorrow  
Come back lucky
