

# Can't Let Love

Latif

I keep tellin' myself it's all a lie  
Until something made me realize  
You're the best thing that happened to me  
You're my pride and joy, my destiny  
Girl, you know I love my music first  
Don't be calling, getting on my nerves  
(I ain't tryna hear it no)  
'Cause what's best for me is best for her  
I wanna give you, girl, what you deserve  
I don't mind spending time  
Girl, you know the bottom line  
Gotta go, I can't stay  
Can't let love get in the way  
On the road night and day  
Maybe later we could play  
Bottom line, I can't stay  
Can't let love get in the way  
After months of being out of town  
I popped up in your door unannounced  
Hoping that I would've seen the worst  
If shorty messing 'round, getting hurt  
But the outcome was so beautiful  
She was cooking something in her robe  
(Um hmm, it smelled so good)  
She was sexy as she wanted to be  
She's my baby girl, my everything  
I don't mind spending time  
Girl, you know the bottom line  
Gotta go, I can't stay  
Can't let love get in the way  
On the road night and day  
Maybe later we could play  
Bottom line, I can't stay  
Can't let love get in the way  
Maybe later we could play  
Can't let love get in the way  
Girl, I wish that I could stay  
Gotta go, baby, I can't stay  
Maybe later we could play

Can't let love get in the way  
Girl, I wish that I could stay  
Gotta go, baby, I can't stay  
I don't mind spending time  
Girl, you know the bottom line  
Gotta go, I can't stay  
Can't let love get in the way  
On the road night and day  
Maybe later we could play  
Bottom line, I can't stay  
Can't let love get in the way  
Baby, let me tell you something  
You know what I gotta do, girl  
I'm always on the road  
Oh, yeah  
I said, I get lonely, baby  
Ooh, said I get lonely at night  
I'm laying by myself  
'Cause I know I gotta treat my baby right
