

Together

Cris Cab

[Verse 1]

Remember how it felt together
The rain would catch us as we'd fall
You ran away to something better
I ran away with none at all[Pre-Chorus]
I wish those moments last
I take that promise back
I wonder if you know
I see how this thing goes
Some say that you can't get back
I know that it ain't like that
So hard when I had to go but

[Chorus]

I want, I wanna know
I got to know
I wanna know
But I got to know[Verse 2]
Remember how it felt together
Always waiting on your call
I still gave you all my time, yeah
We shouldn't live in love at all[Pre-Chorus]

I wish those moments last
I take that promise back
I wonder if you know
I see how this thing goes
Some say that you can't get back
I know that it ain't like that
So hard when I had to go but[Chorus]

I want, I wanna know
I got to know
I wanna know
But I got to know[Outro]
Remember how it felt together
The rain would chase us as we'd fall
I wish those moments last
I take that promise back
I wonder if you know
I see how this thing goes
