High Life

Mono

You never heard a single word
That I said to you tonight
You don't remember anything at all
You seem to think that makes it rightIt's not the way you hurt me
It's not the way you scream and shout
You'd never listen to a word I say
Always try to shut me outYou, lately
You're nothing like the man I used to know
'Cause you just live the high lifeAll you do is get high life
All you see is the high life
And you never come downGoing around in circles
That never end or ever start
You always run away from everything
You hide behind your pastYou always seem so distant
You always seem to be unsure
We used to get through nearly anything
But you don't know me anymoreYou, lately
You're nothing like the man I used to know
'Cause you just live the high lifeAll you do is get high life
All you see is the high life
And you never come downDown?
You never come down
Down?
You never come down
Down?
You never come downYou, lately
You're nothing like the man I used to know
'Cause you just live the high lifeAll you do is get high life
All you see is the high life
And you never come down
High lifeAll you do is get high life
And this is the worst trip
You've ever been on
