In My Head

Madcap

Am I crazy?
There are voices in my head
And I can't stop them
I'm talking to myselfThese conversations get me
They get me so mixed up
Even though I trust you
They tell me doubt, doubt, doubt
Doubt, doubt, doubtIs it in my head?
Is it in my head?
Are you telling the truth?Is it in me head
Or am I falling down a hill?
Gaining momentum
Towards the crash at the bottom where it beganLate night phone calls
Your voice seems unconcerned
I'm pulling my hair out
One for every wordIs it all imagination
I can only wish
Wouldn't be the first time
That I've been so confused
So confusedIs it in my head?
Is it in my head?
Are you telling the truth?Is it in me head
Or am I falling down a hill?
Gaining momentum
Towards the crash at the bottom where it beganTime keeps counting down on me
Or is it just a dream?
Time keeps counting down on me
Or is it just a dream?
Time keeps counting down on me
Or is it just a dream?Is it in me head
Or am I falling down a hill?
Gaining momentum
Towards the crash at the bottom where it beganIs it in me head?
