Serotonia

Highly Suspect

I wish that everyone I knew was dead
So that I'd never have to pick up the phone
I just wanna be naked
Masturbate all day at homeIt's California dreamin'
Oh, my heart just started screamin'
I think I wanna be aliveI wish I lived on top of the sunset
Yeah, cuz Hollywood you know my type
I'll get stoned all night with Lana
Half in and half out of the lightOoh, it's California dreamin', yeah
Oh, my heart just started screamin'
I think I wanna be aliveI can feel it too
So what am I waiting for?
I'm afraid of you
It's just I'm not that good of a person
But I might be enough for youI'm gonna move to California
I'm gonna melt into the sand
Slow dance with Elizabeth Taylor and Audrey
Bum a cigarette from Carey GrantNow, New York you know I love you
Because you made me who I am
Which is not that good of a person
I need to feel somethin' againI can feel it too
So what am I waiting for?
I'm afraid of you
It's just I'm not that good of a person
But I might be enough for you
And I got enough love for twoI can feel it too
I'm afraid of you
It's just I'm not that good of a person
But I might be enough for you
